Soft Skills

- Collaborative
- Organized & Time Efficient
- Analytical
- Detail Oriented

Interests

- Reading & Learning
- Running & Hiking

I'm a recent Software Development graduate with a strong interest in web development and a passion for building clean, functional, and user-friendly websites. I have a solid grounding in full- stack technologies like .Net Core, JavaScript, and SQL, and I'm always curious to learn new tools and improve my approach. I thrive in collaborative environments where I can contribute to real-world projects, learn from others, and continue growing both technically and personally.

Education

Diploma in Information Technology (Software Development)

Nelson Mandela University – Gqeberha,SA

Graduated: 2025

- Gained a solid foundation in software development principles and best practices.
- Developed the ability to design maintainable, scalable applications with clean architecture.
- Practiced Agile methodologies and learned the fundamentals of software testing.

Work Experience
